

"Elm Street Construction"

"Excavation in the CTH V (Tyranena Road) and Elm Street right-of-way will cause lane closures today (Tuesday, April 19, 2016) and tomorrow (Wednesday, April 20, 2016). At or near 1pm today, a water connection will be made. It is not anticipated that there will be any water service interruption, however if there are complications with the proposed connection there is the chance that water service in the area of the CTH V and Elm Street intersection may be affected. "
